

ANTI SIPHON VALVE (Brass)

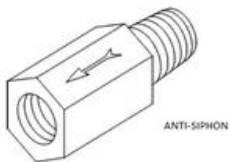

ASV-BR000

Anti-Siphon Valve(BRASS)

- Size 1/4 inch NTP MxF connections
- in expensive
- Quick and Easy to install.
- No electric required
- Eliminates all flow restrictions
- Tamper-proof construction

EASY TO INSTALL USING WITH A 1/4" FLEX CONNECTOR OR 1/4" TUBING INTO THE PRODUCT PIPE

This is a poppet (piston) and spring type anti-siphon valve where the spring constantly opposes the pressure acting against the piston which seals off the product inlet port. When loss of product pressure in the product line, the Anti-Siphon Valve opens up to STOP the tank from being able to siphon. Spring Range: 2 psig / 0.138 barg

- Body: Brass
- Poppet/Guide Assembly: Brass
- Seat (wetted): Viton
- Spring: 302SS
